SKILLS

Web Development

HTML, CSS, SASS, Bootstrap, JavaScript, React JS

Other

Git/Github, BEM Methodology, Adobe Photoshop, Adobe Illustrator

SOME OF MY PROJECTS

LINK Group Company B2E Portal

Worked on developing a large, multi-page B2E company portal

Developed new pages with HTML, CSS, JS and WordPress

Implemented new features

LINK E-Learning Platform

Worked on a brand new platform for LINK E-Learning system

Coded new single pages from scratch using HTML, CSS, Bootstrap and JS

Updated and improved existing pages

LINK Group CSS Framework - LINK CSS

Planned and coded a custom CSS framework for LINK Group

Used SASS and BEM Methodology to create custom classes for quick developing

Responsive classes for flex and grid layouts, classes for spacing properties and styles

Made full reusable components

Movie Web Application With React JS

Single page application made with create-react-app and MovieDB API

Routing between pages is done using react-router

User can see Most Popular, Upcoming and Top Rated movies, as well as search for a specific movie and get more info about it

Cornelius & Cylinder Restaurant Website

Developed in HTML, CSS and JavaScript. Website consists of multiple pages including a main page, an interactive menu page with food images and a picture Gallery.

Shake It

Single page application made Vue JS

User can store his shake recipes, edit the ingredients, delete them and add new ones

Application stores real data with Firebase database
