SKILLS

Web Development
HTML, CSS, SASS, JavaScript, React JS
Other
Git/Github, BEM Methodology, Adobe Photoshop, Adobe Illustrator

SOME OF MY PROJECTS

Movie Web Application With React JS
Single page application made with create-react-app and MovieDB API
Routing between pages is done using react-router
User can see Most Popular, Upcoming and Top Rated movies, as well as search for a specific movie and get more info about it

Cornelius & Cylinder Restaurant Website
Developed in HTML, CSS and JavaScript. Website consists of multiple pages including a main page, an interactive menu page with food images and a picture Gallery.

Shake It

Single page application made Vue JS
User can store his shake recipes, edit the ingredients, delete them and add new ones
Application stores real data with Firebase database
